100 mm Dia. x 150 mm Ht.

**Glasses x 2**  
70 mm Dia. x 90 mm Ht.

## WATR

Drink-ware Series in Beaten Copper

<b>Designer</b>	Parul & Mooshir Vahanvati
<b>Material</b>	Pure Copper, Teak Wood, Brass
<b>Craft</b>	<i>Matar</i> - Hand Beaten
<b>Care</b>	<p>Your uncoated water bearers should be washed daily with a soft cloth and a detergent/metal cleaning agent (Tamarind and lemon also work wonderfully). Wipe dry immediately after washing. It is important to wipe away all traces of water after washing, else the carafe/glasses will catch the water stains. Washing and wiping on a daily basis will help retain the coppery shine on your product and will prevent the build-up from the natural oxidation process of copper when it is exposed to the atmosphere.</p> <p>Never use abrasive cleaning pads to clean your copper-ware.</p>
